ORSE Organic Separator type C, 1250 mm x 2500 mm 10 tons bottle / hour

Overall view of ORSE

Intended use

The ORSE Organic Separator is exclusively intended for the separation of light-weight contaminations (plastic caps, paper, and foil) from crushed cullet (broken glass). The ORSE Organic Separator type C can convey whole bottles and separate lighter-weight contaminants from the material flow.

Weight of the ORSE Organic Separator Components delivered.

	Vibration feeder:	Fan + Transition
ORSE type A	approx. 760 kg	approx. 170 kg
ORSE type B	approx. 840 kg	approx. 220 kg
ORSE type C	approx. 1.215 kg	approx. 220 kg
